

Time to get Creative!

Take a photograph

Did the person you interviewed talk about a place or a time that is important to them? Maybe there's somewhere in your community that really sums up what your town is all about. Snap a photo on your phone!

Paint / Draw / Collage

Did the person you interviewed say something that really stood out to you? Perhaps they described a memory to you. Could you paint what you think that looks like? Or try painting a portrait of your partner!

Write a poem

Writing a few short lines of a poem about the person you worked with can be a really meaningful response!

Shoot your own video

If you're doing your call over the computer, record it and edit into a video. You could even try making a video of your town and the important community landmarks mentioned in the interview.

Important!

Once you're finished, please return this sheet plus your creative response to your Community Organiser.

Your interview and any art pieces created will be a part of a digital online Time Capsule and may feature in an exhibition in your area showcasing the images, interviews and artistic pieces generated through this project.
