

## Parent/ Guardian Consent Form

Permission for your child to participate in the Community Time Capsule Project.

### What is the Community Time Capsule Project?

- **Neighbourhood Network** is a positive community building organisation. We have teamed up with **Creative Ireland** and **Wicklow County Council** to the 'Community Time Capsule Project' to Wicklow. This is a fun cross-generational project with a creative twist.
- A community organiser will help to connect a teenager with a senior member of the community via phone call. We will provide templates for interviews and encourage an artistic response to create a unique snapshot of your community from a multi-generational point of view.
- The interview and artistic expression will be featured in a digital "time capsule" book on our website to mark this historic time.

### As part of the project your child will:

- Be asked to interview an older member of your community in a safe and respectful way
- Liaise with the community organiser in order to coordinate their interviews
- Have their interview and artwork published in a digital book, saved in a local archive and possibly as part of a local public exhibition.

---
